For JnJ finals, the final round pairings will be randomized by using cards.

3. **Routines:** Competitors will draw their competition order during the competitors meeting. **The champions of the previous year will be competing last by default.**

RESTART:

You may request a restart if something happens during your dance that could impact safety, such as:

1. Technical problems – factors outside your control, such as: lights in the ballroom go out; flooring is faulty or damaged; music suddenly stops; or our DJ plays the wrong music for your dance.
2. Costume malfunctions – your shoe breaks or becomes unfastened or untied; your costume tears or breaks; or you lose a piece of clothing that could endanger other dancers or expose a part of your body that would not normally be exposed in a public setting.
3. You may NOT request a restart if you are dissatisfied with your dance order, performance, partner, music, or because you fail to remember part of your routine.

4. For your own safety, **you also will not be allowed to restart if you are injured during your dance.**
5. You must request a restart prior to your departure from the floor, and our Head judge must approve your request. Our head judge may also call for a restart without a request from you if our Head judge believes it is fair to all and in your best interest.
6. If our head judge allows a restart, your previous scores will be voided.
7. The restart will begin at the Head judge's discretion depending on whether it is a Showtime or Originals routine. They will not automatically perform last, if possible. If the Head judge denies your request for a restart, or you decline an offer to restart, your prior performance will be scored.

Props:

A prop is anything used in the routine that is outside of the costume and is used to help tell a story.

1. Hats, jackets, capes, sunglasses, and other reasonable dance clothing items are considered costumes and may be worn in all divisions. However, clothing or items may NOT be discarded, nor switched from one partner to another.
2. Throughout the duration from when the music commences until the completion of all songs in your heat or finals, it is strictly prohibited to remove or move any clothing or costume items (including hats, jackets, hair band and others).
3. Adjusting your clothes or costumes to prevent the exposure of private parts is not classified as the use of a prop.
4. If you are concerned if something might be considered a prop, you must ask prior to competing.
5. Microphones and/or headsets are not permitted during any routine.

JUDGING CRITERIA

The relative placement system will be used to judge all Worlds' competitions.

TIMING (20%):

Timing as a judging category is defined as the relationship between the dancers and the music. Timing includes:

- Dancing on-time
- Musicality
- Musical interpretation (how the dancer hears and applies the song)

Dancers begin the competition with the full 20% for timing.

Beyond the basic 20% of the score allotted for timing, BZDC recognizes that timing also affects the judging of all other categories. Therefore, judges should also be lowering scores for technique, teamwork, difficulty, and showmanship when elements in those categories are not danced on time. The approach for this is discussed under each of those headers.

Dancing on-time

Brazilian Zouk can be danced to any 4/4 time signature music. The pulse is on the **downbeat** (1, 3, 5, 7), when counting the 8 beats in 2 measures (dancers count).

Competitors **must** accent the downbeat (Dancing on the upbeat timing is not permitted, and constitutes an error in timing). Competitors are permitted to add Lambada movements as long as they have the pulse on the downbeat.

TECHNIQUE (40%):

Competitors begin the dance with a 0% score for technique. Judges add to the score as the competitors display appropriate technique. Keep in mind that poor teamwork and timing should reduce the amount of credit given for technique, as this is considered improper technique.

Technique can be divided into two types: Individual and Partnership.

Individual technique

Individual technique is how a competitor uses his or her own body. It includes:

1. Footwork (how the competitor places and uses the feet)
 1. Body Lines (how the competitor places and controls their free hand or foot)
 2. Posture (how the competitor stands and holds their body)
 3. Balance (whether the competitor is stable, including entering, maintaining, and exiting turns)
 4. Quality of Movement (Body movement in Zouk movements)
 5. Ability to dance on time

Partnership technique

1. The ability to not take their partner off balance
2. Lead / Follow (the action and reaction between partners to create a Zouk flow and dance on time)

3. Body Leading/Following (the ability of leaders to use their body to lead, and ability of followers to express through their body while following without breaking connection)

Brazilian Zouk Content

1. Brazilian Zouk foundational movements, including Basic, Lateral, Simple turns, Soltinho, Lunges, Elastic with contraction, Bonus or boomerang, and lo – lo (and variations on these basics, according to level).
2. Proper use of head movements and cambrés (according to competitor's level)
3. Proper use of body waves, isolations, and other body manipulations (according to competitor's level)
4. Proper use of pre-movement and preparations (according to competitor's level).
5. Proper use of turns and spins, including horizontal and vertical axis turns (according to competitor's level).

TEAM WORK (20%):

Competitors begin the dance with 20% score for Teamwork. Connection is judged the same way at all levels.

Teamwork is divided into three components:

1. Partnership technique (Partner centering | connection | lead/follow)
2. Partner communication (Compatible musical interpretation | partner awareness)

3. Partner compatibility (Compatible musical interpretation | adjusting personal styles to compliment the partnership | adjusting to a partner's limitations or strengths)

DIFFICULTY (10%):

All competitors begin with a **0% score for difficulty**, which increases based on the level of technical and musical challenge demonstrated throughout the routine.

Movements such as **advanced turn patterns, counterbalances, continuous spins, and one-leg spins** (with or without head movements) contribute to a higher difficulty score — but **only if they are executed successfully**.

Difficulty is evaluated equally across all levels.

Choreography reflects the dancers' interpretation of the music. Strong choreography should:

- Flow seamlessly from one movement to the next
- Include creative and well-structured turn patterns
- Feature clever use of **tricks and lifts**, presented with originality and musicality
- Demonstrate **smooth transitions** between all elements
- Make effective use of stage space
- Be both musical and unique in presentation

Remember: quality execution, creativity, and musical interpretation are key to a high score.

APPEARANCE / ARTISTIC / COSTUMES & DANCE ETIQUETTE (10%):

Judges will evaluate how **professional, polished, and confident** the couple appears on stage. This includes their **ability to project to the audience**, maintain strong presence, and **capture attention throughout the performance**.

All contestants are expected to demonstrate proper **competition etiquette**, including **respecting other performers** by avoiding any behavior that may distract from a couple currently competing.

Props are not allowed in any division and shoes are compulsory.
